Welcome to the (North American Vascular Biology Organization) NAVBO live discussions with presenters from our past webinars. NAVBO’s Education Committee is offering these discussions as an additional learning opportunity during the COVID-19 quarantine. You have probably seen an advertisement for the online offerings in the NAVBO newsletter or email containing a link to register. We ask participants to watch or review the webinar or research papers presented in the archived webinar recordings prior to joining a scheduled live discussion.

When you register for the live discussion you will receive a confirmation email with a link to “Join” the webinar as an attendee. Do not share this link, it is unique to you. The live discussions with the presenters will be an open discussion format in the GoToWebinar platform. Also within the confirmation email are links to the past webinar recordings. When you register for a recording you will be taken directly to the video.

We recommend using a High speed “wired” internet connection (as opposed to WiFi) to get a clear uninterrupted audio stream. You may connect to the webinar audio via the computer connection (VOIP) or over the telephone. Changing your option may be done at any time during the webinar from the control panel. The phone connection requires a PIN code from your confirmation email to be entered.

If you arrive at the website before the event begins you will be presented with a welcome screen. That screen will change once the organizer begins the broadcast.

On the left side of the control panel is a column of icons. You can collapse this control panel with the orange arrow on the top left side, along with tabs to mute/unmute yourself, view in full screen and raise your hand to ask a question in real time audio.
If you are not familiar with the GoToWebinar platform, there is a 5 minute video available on the GoToWebinar webpage that will explain the process. GoToWebinar Attendee Quick Start 5 minute video.

When the webinar begins you will have two options to participate.

Throughout the discussion you may also raise your hand by clicking the “hand icon” on the bottom left side of your control panel. When you are recognized you can unmute your microphone, which will turn green, and you will then be able to participate in real time with the speakers.

You may also type your questions/comments into the drop down “Question” box in the control panel as shown on right.

The speakers will respond verbally.

These discussion sessions will be 30 minutes in duration. If you experience technical problems with GoToWebinar platform, please click the help tab at the top of the Control Panel, then Scroll to the bottom of the help screen for the GoToWebinar Technical support phone number
