

Vasculata 2009

July 28-31, 2009

sponsored by

Cleveland Clinic Lerner College of Medicine of CWRU and the
North American Vascular Biology Organization

Organizers: *Tatiana Byzova with Brian Rini, Paul DiCorleto and Martha Cathcart*

TOPICS

Blood Vessel Development and Stem Cells

Vascular System and Atherothrombosis

Tumor Angiogenesis

Angiogenic Therapies

New Experimental Models

PRACTICAL WORKSHOPS

July 28 (additional fee required)

- Isolation and functional assays using vascular cells
- Angiogenesis models: hind limb ischemia, tumor and wound angiogenesis
- MicroCT analysis of vasculature
- Mouse models in atherosclerosis research

Speakers:

Keynote Lecture:

Edward Plow, Cleveland Clinic

Bela Anand-Apte, Cole Eye Institute

Tatiana Byzova, Cleveland Clinic

Martha Cathcart, Cleveland Clinic

Paul DiCorleto, Cleveland Clinic

Maria Febbraio, Cleveland Clinic

Jorge Garcia, Cleveland Clinic

Gary Gibbons, Morehouse University

Mukesh Jain, Case Western Reserve

University

Marc Penn, Cleveland Clinic

Eugene Podrez, Cleveland Clinic

Jeremy Rich, Cleveland Clinic

Brian Rini, Taussig Cancer Institute

Martin Schwartz, University of Virginia

Stephen Schwartz, University of

Washington

Roy Silverstein, Cleveland Clinic

Michael Simons, Yale University

Olga Stenina, Cleveland Clinic

Michiko Watanabe, Case Western

Reserve University
